The Multihalle has been spruced up and is ready to re-open to the public. Starting on the evening of 24 May, a series of events will rekindle awareness of this unique architectural cultural platform for an ‘open society’, in tune with Frei Otto’s original intentions. An open society that shapes the future in a well-informed, responsible and co-creative manner.

FREIRÄUMEN aims to inspire the public to view the Multihalle complex (and the works and visions of Carl Friedrich Otto and Frei Otto) from a fresh perspective, with the intention of using the Multihalle as a space in which to develop and realise new visions for this site and its designed and engineered surroundings, and in harmony with the local community, the general public, sustainability and civic life.

FREIRÄUMEN #1
Kick-off: 24 May 2017

A programme by the Building Competence Centre of the City of Mannheim, in cooperation with zeitraumexit, Oliver Rack, Collini Social Club, and planning agency Yalla Yalla.

A programme by the Building Competence Centre of the City of Mannheim, in cooperation with zeitraumexit, Oliver Rack, Collini Social Club, and planning agency Yalla Yalla.

In the Multihalle, they will utilise the history and envisaging the future of the Multihalle. The building will temporarily serve as a laboratory and playground for the senses and for ideas.
